

Ankit Soni

Software Engineer — Full Stack Developer, Delhi, India

+91-7348383868 | sethankit027@gmail.com | LinkedIn | GitHub | Portfolio

Professional Summary

Full Stack Software Engineer with 2+ years shipping production web applications in **React.js**, **Next.js**, **Node.js**, and **Express.js** on the **MERN** stack. Hands-on with **PostgreSQL**, **MongoDB**, **Prisma ORM**, and **Sequelize ORM**, designing secure **RESTful APIs**, **JWT**-based authentication, **RBAC**, and **AWS**-integrated services for multi-tenant **SaaS** platforms. Owns projects end-to-end – schema design through deployment – and regularly partners with product, design, and business stakeholders to translate requirements into scalable systems.

Experience

Software Engineer (Full Stack) - Sri Sai Group (Tech Prizm)

Dec 2025 – Present

- Own full **SDLC** for **3 production business websites** – **Tech Prizm**, **Mangalya Group**, and **Game Luxe** – coordinating directly with business stakeholders on requirements, design, and content.
- Independently architect and build **Prizm HR**, a multi-tenant **HRMS SaaS** (see Projects), covering **Attendance**, **Leave Management**, and **Payroll**, from schema design to deployment, for internal and external client use.

Web Developer - Geogo Infotech

Aug 2024 – Nov 2025

- Collaborated with the product team to ship **10+ features** for **ChikuCab**, a cab-booking platform, including **fare estimation**, **booking flow**, and **driver tracking**, cutting page load time by **35%** through backend query and UI optimization.
- Drove **SEO** and **Structured Data (Schema Markup)** initiatives alongside the marketing team, increasing organic traffic by **40%**, and ensured consistent rendering across **5+ browsers and devices** via rigorous cross-browser testing.

Projects

Prizm HR – Multi-Tenant Enterprise SaaS

Jul 2025 – Present

(*React.js*, *Node.js*, *Express*, *PostgreSQL*, *Sequelize ORM*, *RBAC*, *Redis*, *AWS Rekognition*)

- Designed a **4-level multi-tenant architecture** (Super Admin → Group → Company → Brand) with scope-aware **RBAC** – **85 permissions across 6 roles** – enforced on a **50+ table PostgreSQL** schema.
- Engineered a **face-recognition attendance system** using **AWS Rekognition** with per-tenant face collections and **AWS Amplify Face Liveness** detection to block spoofed/proxy check-ins.
- Configured a **payroll engine** supporting multi-level salary components, automatic proration, and statutory deductions (PF, ESI, PT, TDS) driven entirely by company-level settings.
- Built a **multi-level manager-chain approval system** with real-time notifications and a full audit-trail across **Leave**, **Attendance**, and **Comp-Off** workflows, working closely with HR ops.

PlanMyTrip – AI-Powered Travel Booking Platform

Live Code

(*Next.js*, *TypeScript*, *Node.js*, *PostgreSQL*, *Prisma ORM*, *AI*, *Tailwind CSS*) Sep 2025

- Shipped a full-stack **cab booking and trip planning platform** serving **100+ users**, with secure **JWT authentication** and streamlined booking management.
- Integrated an **AI-powered trip planner** generating personalized itineraries with **95% accuracy**, lifting **user engagement by 90%**.
- Built **RESTful APIs** with **Node.js/Express**, optimized **PostgreSQL** queries via **Prisma ORM**, and auto-triggered real-time booking notifications using the **Brevo Email API**.

Mysterious World – Anonymous Messaging Platform

Live Code

(*Next.js*, *TypeScript*, *MongoDB*, *JWT*, *AI*, *Zod*, *Tailwind CSS*) Jun 2025

- Launched a secure **anonymous messaging platform** serving **200+ active users**, with **email verification** and **JWT**-based session authentication.
- Applied **Google Gemini AI** for smart message suggestions, content moderation, and sentiment analysis, reducing spam and improving response quality.
- Enforced end-to-end input validation with **Zod** schemas and sanitization, and optimized **MongoDB** queries to cut average API response time by **40%**.

Technical Skills

Languages: JavaScript, TypeScript, C++, Java

Frontend: React.js, Next.js, Redux, Tailwind CSS, Material UI, ShadCN UI, HTML5, CSS3

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, RBAC

Databases: PostgreSQL, MongoDB, MySQL, Prisma ORM, Sequelize ORM, Mongoose, Cloudinary

DevOps & Tools: Git, GitHub, CI/CD, Postman, VS Code, Redis, Socket.io, AWS (Rekognition, Amplify, Liveness)

AI Tools: Claude Code, GitHub Copilot, ChatGPT, Codex

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, System Design, API Integration, SEO, Responsive Web Design, Cross-Functional Collaboration

Education

Institute of Engineering and Technology, Lucknow

2021 – 2023

Master of Computer Applications (MCA)

CGPA: 8.5/10

Mahatma Gandhi Kashi Vidyapeeth, Varanasi

2017 – 2020

Bachelor of Science (B.Sc), Mathematics

Percentage: 60/100
